| Tyrolean sustainability

Avoid instead of compensate

That is our guiding principle on the subject of sustainability in the textile industry. Every person and every company interprets the topic of sustainability differently, but it is important to reflect on ourselves – because we can do a lot for our environment.

We want to communicate the truth with realistic facts and figures. At the same time, we always remain open to change and are by no means against new ideas. We are happy to support our competitors if they want to take up some of our ideas themselves.

„Sustainability should not be an instrument of marketing“

Ulf Kattnig, Founder of Chillaz

Is sustainable production really taking place in the textile industry?

Often, good marketing strategies make us forget to take a closer look at a brand, its transport routes and production sites. But we should! Many companies claim to comply with the code of conduct – but what does that mean? The code of conduct describes the legal framework of each country. These include minimum wages, women's rights, dismissal rights, working hours, etc.

In many countries, the minimum wage is so low that employees cannot live on it, let alone feed their families despite working 80 hours a week. A fact that absolutely does not correspond to our internal Chillaz Codex, because we want to make sure that each of our employees is financially secure and happy to work with us as part of the Chillaz family.

We guarantee our employees in production that they will be able to feed their families and provide their children with a good school education with 43 hours per week.

For us this also includes good pension insurance, paid commuting, no overtime, 5 weeks paid holiday, clearly marked escape routes, tea and biscuits during breaks as well as a hot lunch in our own canteen and compliance with hygiene standards such as clean workstations and toilets.

| The Chillaz Codex

Remuneration must be such that we, our suppliers and their employees earn enough money so that all the families involved can live well and their children can enjoy a good education.

We communicate honestly and responsibly, are there for each other and will always put people and nature above financial needs.

- + A brand is worth as much as its values.
- + We set ourselves the goal of producing all your favourites in Europe.
- + Quality is above the price.
- + We work as a team.

| We invest in the future

Measures of the past two years and new goals

2019

Replacement of all windows to the latest state of the art.

2020

Installation of a new wood chip heating system. We are excited about the coming consumption. We obtain the material from our neighbouring joinery.

2022

New insulation of the facade of our company building. We will see how this measure directly affects our consumption.

The shirt 3.0 by Chillaz

Shirt grouchies, beware! Here comes the new generation of shirts, version 3.0! Take our well-known T-shirt quality and build our cosy shirts from a super soft and extremely stretchy jersey fabric with a fully printed design. The wearing comfort is incredible! The thin climate-regulating material mix, with its high amount of natural Austrian TENCEL™ fibres not only improves the ecological footprint but also pleases your skin. The shirt 3.0 looks great on steep rock faces, an extended hiking tour or just chilling out!

- Fibre mix:

47,5 % TENCEL™, 47,5 % Cotton,
5 % Elastane
- Areas of use:

- Climbing
 - Hiking
 - Lifestyle
 - Beach

- Bouldering
 - All Mountain
 - Chill
 - Everyday Challenge

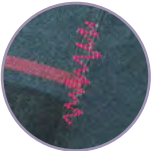

Two collars | for different tastes. The stand-up collar gives the shirt a different vibe compared to the regular collar. You'll find it under **Hias** and **Sonnblick**, while the regular ones are called **Sebastian** and **Similaun**.

Button placket | with high quality wooden buttons

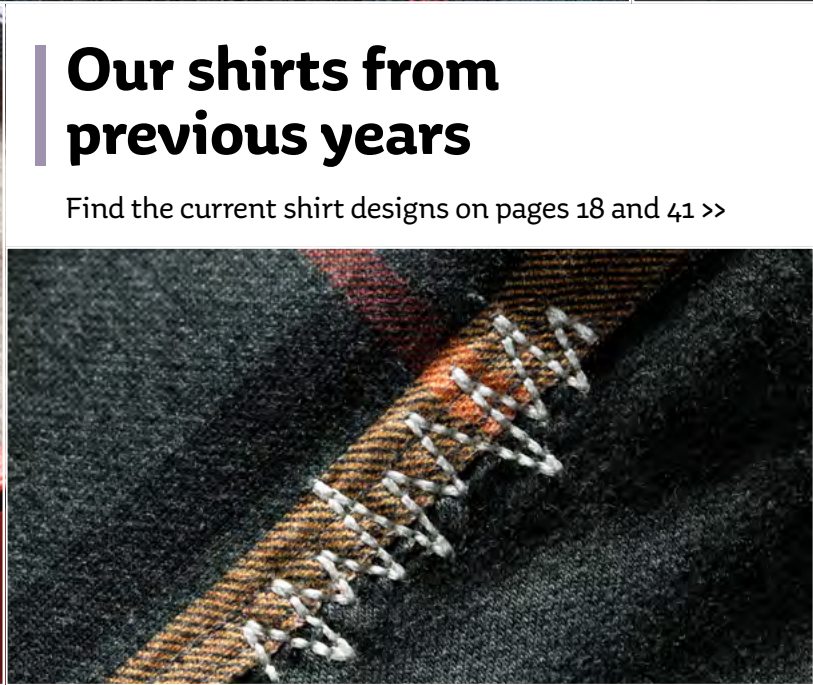

Chest pocket | with zig zag stitching

Comfortable jersey fabric fully printed through the use of the latest inkjet printing technology. The fabric uses our usual TENCEL™ fibre mix and doesn't compromise in quality. In the past there had to be a substantial amount of polyester in a fabric to be able to do more than a small print – but no more!

Longsleeve cuffs instead of the usual shirt cuffs, since they are more convenient, especially for activities like climbing. You can still slide them up and the women's shirts have an extra button to roll up and fasten the cuffs - with a nice extra print inside.

Our shirts from previous years

Find the current shirt designs on pages 18 and 41 >>

The Chillaz Family

Production Team

More than 20 years ago we established our production in Istanbul with a local family-run company. All these years these people have accompanied us on our way, now even our children are all grown up. Together we tinkered, laughed and sweated!

Our values as families have weight and leave no room for minimum wages or inhumane conditions – neither here in Austria nor in Istanbul. We are the Chillaz family!

Office Team

Ulf Kattnig
Founder/Owner 2001
Design, Development, Production, Sales

Sandra Kattnig
Head of Design 2003
Design, Marketing, Sales

Berivan Özdemir
